

Streamlined login experience begins at Corewell Health East

On May 7 at 12:30 a.m., Corewell Health East user accounts will transition to authenticate on the Corewell Health domain.

Who will be impacted?

All Corewell Health East team members

How to prepare:

	Password Synchronization: Ensure your password has been recovered to synchronize across the system to prevent login disruptions. Follow the steps on the password recovery flyer.
	Workstation Preparation: Power on your workstation before departing on Monday, May 6 . This will facilitate the delivery of the update package to your workstation.
	Reboot Required Prompt: Be prepared for a brief interruption (5-15 minutes) for a required reboot to migrate your profile. Your device will reboot automatically if there is no response to the prompt within 15 minutes.
	Prompt Instructions: Review the reboot required instructions and follow the prompt sequence outlined when prompted .

What can I do now?

1. Share this flyer to help spread awareness throughout Corewell Health East.
2. **Learn more** by visiting [East: Streamlined login experience begins on May 7](#) and check back often for the latest information. Scan the QR code to access on the go.
